Ziaja company was established in 1989 in Gdansk by two pharmacists, Aleksandra and Zenon Ziaja.

The aim was to create medicinal preparations and skin care cosmetics with simple but effective formulas based on pharmaceutical experience and inspired by the coastal climate.

Today Ziaja is a brand which encompasses a wide range of modern products,
designed for all skin types and providing
comprehensive personal care for the whole family.

As a producer of popular and well-known cosmetics,
Ziaja is committed to the care of preserving the natural living conditions for future generations.
We focus on environmentally friendly solutions throughout the whole production process.
Ziaja success originates from hard work and enormous dedication as well as great enthusiasm and creativity.

All Ziaja products are produced in its own two modern production plants with an area
of 25,000 m² located in the ecological drinking water intake zone in Kashubia region.
